

§ 17.40.060. Illumination

- A. For nonresidential zones no signs within 300 feet of a residential zoning district shall be illuminated between the hours of eleven p.m. and five a.m.;
- B. For residential districts, no sign shall be illuminated between the hours of ten p.m. and six a.m.
- C. Signs that are externally illuminated shall have a shielded, stationary, steady light source that is directed solely at the sign face;
- D. Light sources used to illuminate signs shall not be visible from adjacent rightsofway or properties.
