

### **15-03-09 Traditional Neighborhood Development**

**J. Outdoor Lighting.** The lighting of streets, pedestrian areas, parking lots, and open space is required. Exterior wall mounted floodlights are expressly prohibited. Indirect lighting, bollard lighting, and landscape lighting is encouraged. Lighting of a building and site identification signs are permitted as allowed by the Development Code, Section 15-17, Sign Ordinance.

Lighting will be judged as to how adequately it meets its intended purpose. Design and location of standards and fixtures shall be specified on the site development drawings. Intensities shall be controlled so that 'safety' lighting is provided while neighboring areas are protected from glare or excessive direct light. See cross section illustration for additional requirements in the report: "Sandy Civic Center Development Master Plan." Street light design fixtures shall evoke a 'village' feel and be installed as required by the Street Lighting Policy.
