

15-10-05 General Guidelines for Signs in Sandy

A. Standards of Construction

1. All signs erected in Sandy City shall comply with the most recent Sandy City adopted provisions of the following; National Electrical Code, International Building Code, and Sandy City Sign Ordinance.
2. Licensed Contractor Required. No sign, fixture or device involving electrical wiring or connections shall be erected or installed in Sandy City except by a licensed and bonded sign or electrical contractor.
3. Engineering Required. All sign permit applications shall be engineered to demonstrate conformance with the applicable provisions of the International Building Code and, where required by the Chief Building Official, shall be accompanied by a drawing stamped by an appropriate engineer, licensed by the State of Utah, attesting to the adequacy of the proposed construction of the sign and its supports.
4. Durability. All permanent signs must be built of durable and permanent materials (e.g., no part of a sign, nor its supports shall be made of wood).
5. Power Source. Permanent power sources for signs must be concealed underground away from public view or within the structure of the sign or building to which the sign is attached and comply with all provisions of the National Electric Code.
6. Foundations. All ground signs must be mounted on foundations and footings which conform to the International Building Code as adopted by Sandy City.
