

17.22.080: STACKING:

Adequate stacking or waiting lanes for those uses requiring such stacking areas shall be designed so that no obstruction shall occur at the road right of way. A seventy two foot (72') minimum stacking area from the service point shall be provided for waiting areas which do not conflict with access to other required facilities. (Ord. 2004-10, 8-10-2004)
