

[Chapter 15.04 SUBDIVISIONS](#)

---

**Section 15.04.900 Weather limitations.**

No bituminous surface course shall be placed when the temperature of the air or roadbed is fifty (50) degrees Fahrenheit or below, during rainy weather, when the base is wet, or during other unfavorable weather conditions as determined by the city inspector. The air temperature shall be measured in the shade. (Ord. 5-1988 § 1 (part): Development Code 4-7-7)
