

12-1-1602 INDUSTRIAL PERFORMANCE STANDARDS (applies to all industrial uses)

1. Purpose

The following performance standards are intended to ensure that all industries will provide necessary modern control methods to protect Juab County from hazards and nuisances; to set objective, quantitative standards for the maximum tolerated levels of frequently hazardous or annoying emissions; and to protect any industry from arbitrary exclusion or persecution based solely on the characteristics of that type of industry's past uncontrolled operation.
