

19.12.080 Water quality.

A. Department of Health Approval Required. Prior to issuance of a conditional use permit or site development plan approval for all uses in the FR zones, regardless of size or number of units, the applicant shall receive the written approval of the board of health certifying that all water quality and health requirements have been satisfied and that the proposed construction will not damage the natural watershed.

B. Developments of More than Nine Lots/Units. Developments of more than nine lots or units shall receive the written approval of the Utah Department of Environmental Quality certifying that the culinary water system and the sewerage system meet all state water quality and health requirements. All approvals shall be in accordance with the regulations of the Utah Department of Environmental Quality relating to culinary water supply and wastewater disposal.

C. Applicable State Regulations and Standards. The applicable state regulations for individual wastewater disposal systems can be found in the Utah Administrative Code, Sections R317-501 through R317-513, as amended from time to time. The applicable state regulations for culinary water supply can be found in Utah Administrative Code, as amended from time to time.

D. Subsequent Changes in Site Plan. If after health department or Utah Department of Environmental Quality review and action pursuant to this section, a site development plan is modified such that the original limits of disturbance change, the applicant must submit the modified site plan to the appropriate health agency for retesting and a new determination whether all state wastewater and culinary water standards have been met. Evidence of such retesting must be submitted prior to final approval of the site development plan. (Ord. 1473 (part), 2001; Ord. 1417 § 5 (part), 1998)
