

19.45.010 Purpose of provisions.

The purpose of the O-R-D zone is to provide an aesthetically attractive environment for offices, research facilities, environmentally appropriate fabrication and assembly uses and accessory uses. This zone is intended to insure compatibility of new development with the surrounding land uses through standards that provide an open campus-like setting with attractive buildings, park-like grounds, and other appropriate amenities supporting employee activity. Specific measures to mitigate impacts of development will be required at the time of design and site plan approval. (Ord. 1192 § 1 (part), 1992)
