

19.73.020 Using this chapter.

The development and design standards set forth in this chapter fall into two categories:

- A. Mandatory standards, which are identified by a “+” notation in the left-hand margin; and
- B. Advisory standards that are strongly encouraged, but not mandatory, which are identified by a “o” in the left-hand margin.

Subdivisions and development subject to this chapter shall comply with all of the “+” standards and shall attempt to incorporate, to the extent feasible or practical, all of the “o” standards. (Ord. 1417 § 3 (part), 1998)
