

3-13: STORAGE OF TRUCKS IN CERTAIN ZONES PROHIBITED

The parking or other outdoor storage of all trucks having a rated capacity of over one (1) ton; construction equipment, such as backhoes, loaders, graders, cement mixers, etc.; or fleets of three or more commercial vehicles (eg, bearing the logo or advertising of a business) is prohibited in the RR-5, TR-5, and CE-2 zones.

Exception: parking and storage in said zones may be permitted for service vehicles in a recreational resort for which a plat has been filed with the county recorder; for incidental maintenance and delivery service vehicles during their period of service; or for construction trucks and equipment at a temporary construction yard licensed under zoning section 3-34-B-3 or a construction site having a current building permit.
