

Chapter 16.19 (AOZ) AIRPORT OVERLAY ZONE

Section 16.19.02 Airport Overlay Zones Definitions.

For the purpose of this Section:

- (1) Airport Approach Zone.** An area at each end of an airport landing strip or take-off strip, broadening from a width of one thousand (1,000) feet at the end of the strip to a width of four thousand (4,000) feet at a distance of seven thousand five hundred (7,500) feet from the end of such strip, its center line being a continuation of the center line of the strip.
- (2) Airport Transition Zone.** A triangular area adjacent to each side of an airport approach zone located with reference thereto as follows: one (1) corner of the transition zone shall be identical with the corner of the approach zone nearest to the landing strip; a second (2nd) corner shall be located at the end of a line, the line extending from the end of the landing strip to a point one thousand five hundred fifty (1,550) feet from the center line of the landing strip and at right angles thereto; a third (3rd) corner shall be located at a point along the approach zone boundary line, which point is seven thousand five hundred (7,500) feet distant from the first (1st) corner above mentioned.
- (3) Airport Turning Zone.** A circular area surrounding an airport encompassing all of the land lying within a radius of two (2) miles distance from the landing strip of an airport, except that area covered by the airport, the transition zones and the approach zones.

(2003-22, Amended, 11/24/2003, Effective 12/19/2003)
