

26-2-11 Power and Telephone Utilities.

All electric power, television cable and telephone utility extensions to and in new subdivisions shall be installed underground to utility company specifications, except in those locations where the utility companies determine, and the Planning Commission concurs that it is impractical due to steep terrain, inaccessible location, or other physical deficiency with the land (Amd. Ord. #2-78, 1/21/78; #2000-19, 7/12/00)
