
36B-6. Streets and Roads.

The Hillside Development Review Board shall review detailed engineering plans for all streets and roads requiring cut and fill, on all lands with slopes of twenty-five (25) percent or more, at the Preliminary stage of the Subdivision procedure.

Landscaping of streets and roads shall be encouraged when appropriate. Erosion control planting on cuts, fills and other locations, considered necessary by the Review Board, shall be provided in order to prevent erosion.
